

Wee Three Kings Preschool presents our

Class for 4's & PreK students!

Be the first to experience this cutting edge, progressive class!

Our new Friday enrichment class for 4's and Pre-K students will integrate science, technology, engineering, art and mathematics into everyday play and learning. The hands-on, project-based curriculum will include: photography, using Chrome books, building, robotics, exploring the great outdoors, 3-D printing and more! Learners will explore, observe, and build on what they know and will be encouraged to think creatively. The goal will be to build creative problem solvers. This class will be an extension of their regular classes. Children will have more opportunities for learning in this STEAM class.

More details:

- The class will meet on Fridays, from 9:00-1:00 p.m. Students will pack their lunch each Friday.
- The class tuition will be \$75/month.
