

Dear Angelfish Parents,

It was nice meeting with most of you last week for evaluations. We hope you found them to be helpful and informative!

I am always amazed every year when the children return from Christmas break how much they have grown and blossomed. They continue to unfold into social beings; imagination and parallel play being a large part of their evolving socialization.

February's themes are Valentines Day and Sea Animals. Our shape is a heart and our color is pink. In addition we will learn how to count to 10 in Spanish. It is precious hearing their little voices singing the numbers.

Thanks again for all your support.

Mrs. Kirk
