

January Newsletter

Dear Little Explorers' Parents,

We hope your Christmas and New Years were filled with love and lots of laughter! Janean and I had a great December with your children learning about their Christmas wishes and watching them in the Christmas program. We are looking forward to welcoming back all the kids and hearing about their Christmas celebrations!

In January we will start the month off with a visit from the Cincinnati Museum Center and their presentation about "Colorful Coral". Mother Nature will be here on the 28th with her program "Under the Sea". In the classroom we will take an up close look at shells and learn a little bit more about our underwater friend the octopus. This will be an exciting month discovering the ocean!

Please remember that we do not have school on Monday, January 21st!

Don't forget that we go outside if it is 32 degrees or above. Please pack hats, gloves and a warm coat!

Sincerely,

Amy and Janean
