Dear Angelfish Parents,

As I watch and observe your children I can't believe our time together is coming to an end. It is bitter sweet. I am blown away at how each and every one of them have grown. They have gone from individual little beings to social spirits. They began the year not having a sense of how to engage with others. Now they chat, share toys, take turns and seek out their peers for entertainment. It is an amazing transformation. We are so proud of how they all have blossomed. It is a true sign of future friendships.

April's theme is Easter and Spring. We have lots of fun activities planned.

Thursday, April 18th is our annual art show. It is a wonderful evening that you won't want to miss.

Mrs. Ayler and I want to thank all of you for making us feel so loved during staff appreciation week. The cards, cookies, yummy lunches and beautiful flowers were such a thoughtful gestures.

A final note, should any of you want to celebrate your child's birthday at school please let us know.

Mrs. Kirk
