

4's Class November Newsletter

Mrs. Friday & Mrs. Dicari

The month of October was jam packed in the 4's Class! We had so much fun celebrating at our Fall Festival and at our Halloween Party. Your children have improved so much on their handwriting skills. We can't wait to see what the next few months bring.

November Activities and Curriculum

In November we will continue to focus on small group math games and activities. Our themes will include Nocturnal Animals, Hibernation and Thanksgiving.

Writing and Literacy

- Practice writing and recognizing our first names and the letters M, H and K.
- Practice beginning sounds during circle time and mystery letter bag.
- Practice writing sight words and letters through card making at the writing center and use magnetic letters to spell our names and sight words.

Math Center

- Children will explore the numbers 7, 8 and 9.
- Children will work on graphing, measurement and patterning.
- Children will continue to work on shape recognition.

Science & Stem

- We will learn all about nocturnal animals and animals that hibernate.
- We will conduct a nocturnal animal STEM challenge.
- We will also build structures on the light table.
- We will end the month with a pumpkin STEM challenge.

Spiritual

- Our Fruit of the Spirit this month is Joy.

Extra Activities

- During our Hibernation Week we construct bear dens as a special snack, STEM and art project.

Thank you for sharing your children with us! We hope you have a Happy Thanksgiving!

Amy Friday & Janean Dicari
