

## 4's Class December Newsletter

Mrs. Friday & Mrs. Dicari

The 4's Class had a busy November! We learned what it means to be nocturnal and we talked about what animals only come out at night. We also talked about the changing seasons and hibernation! We ended our hibernation week with a tasty STEM challenge where we built bear caves out of graham crackers and frosting. It was so much fun watching your children problem solve!

### December Activities and Curriculum

In December we will celebrate all things Christmas! We will talk about the Christmas Story and Baby Jesus. We will also be singing Christmas carols and talking about our family traditions.

### Writing and Literacy

- Practice writing and recognizing our first names and the letter Ll.
- Practice beginning sounds during circle time and mystery letter bag.
- Practice writing sight words and letters through card making at the writing center.
- We will review the letters that we have covered so far.

### Math Center

- Children will explore the number 10.
- We will review the numbers 0-10
- Children will work spatial relationships.

### Science & Stem

- We will conduct a Christmas tree STEM challenge.
- We will also build structures with the magnet tiles and jingle bells.

### Spiritual

- Our Fruit of the Spirit this month is Peace.

### Extra Activities

- We will be making Christmas presents. Shhhh.....It's a surprise!

Thank you for sharing your children with us! We hope you have a Merry Christmas!

Amy Friday & Janean Dicari
