

WELCOME!

We are so pleased to finally welcome you to our STEAM class. Some of you know me already from class last year or from PDO classes, Ms. Monica will be joining us some of you will know her from lunch bunch and working at the front desk.

Our goal is to create an environment where students feel free to create, explore, experiment and ask questions and wonder!

A lot of times we do experiments that can be messy, please bear that in mind when dressing your student. We will be in class for 4 hours so the school will provide a snack but you will need to send a peanut free lunch.

We are going to have a fun filled February learning about The Three Billy Goats Gruff, snow and ice, simple machines and recycling. We will start to use the chrome books and learn to use a digital camera.

We will be doing drop off at 8.55 and pick up at 12.55 at the main front doors.

If you have any questions please feel free to email me at jessgear@icloud.com

We look forward to seeing you on Friday 5th February!!

Ms. Jess and Ms. Monica
