

May 2021 STEAM 3's Newsletter Ms. Amy Ms. Paola

Is it May already?!

Ms. P and I have enjoyed having your children in our class this year. We were so excited to finally be able to hold classes and let me tell you... our excitement never dwindled as the months went on! It is such a pleasure to come into school every Friday and share our stories, experiments, skills, artwork, etc. I will truly miss each and everyone one of your children!!

If anyone would like to share stories, letters or artwork I would love to receive them over the Summer! My address is:

Amy Lipcius
137 Colonial Drive
Loveland, 45140

And my pool is always open if anyone wants to stop by for a swim!

May 7 Bubble Fun!

Tomie dePaola's *The Bubble Factory* will set the tone for this fun-filled-last-class-of-the-year! How can we use pipe cleaners to make the best bubble wand? And is there a way to make the "world's biggest bubble?" We will experiment with different kitchen items to see what works best in our own bubble factory! Our experiment will include making a bubble lava lamp. We will also make fun bubble paintings outside.
