

Hello STEAM families! Our class thoroughly enjoyed the visit from Pat the Body Mechanic. She, along with her grease monkey and puppets, taught us about major organs in our body and how we need to take care of them. We learned about magnetic force through the representation of a spider making a web. We also spent time building bridges and escaping trolls (thank goodness). We spent the last class exploring the inside and outside of pumpkins.

During the month of November we will:

- Build a strong house to fend off wolves
- Build a leaf creature
- Build a ship that floats

If you have not downloaded the GroupMe App, attached is the invitation. You will be able to view class pictures and important last minute notes and reminders.

Thank you for sharing your little ones with us! They are such a joy in our lives. Enjoy Thanksgiving, as we have so much for which to be thankful.

Fondly,  
Ms. Boldizar
