

**We packed a lot of fun classes into March. They really enjoyed learning about planes and making paper planes!**

**Pumpkin Jack has now turned into many baby pumpkin Jacks, hopefully in a few weeks you can plant theirs into the ground and see if we can get some pumpkins.**

**We will start off April with another visit to coding, and how important it is to give clear instructions and to follow them in order. We will do our last fairy tale class with Little Red Riding Hood and have some fun with mazes. In our color creating class we will make some colored slime and recycle some crayons to make a SUPER CRAYON. We will finish the month off with a class all about water and bubbles, hopefully outside. We will try and catch a bubble without letting it pop.**

**Throughout the month of April we will also be working on a project for Earth Day which is the 22nd.**

**We have had some great STEAMERS present this month and we look forward to seeing what April brings!**

**Hope you all had a great Spring break.**

**Ms. Jess and Ms. Jamielynne**

**Only 5 classes left!**
