

Hello STEAM families! During October our class thoroughly enjoyed the visit from Pat the Body Mechanic. She, along with her grease monkey and puppets, taught us about major organs in our body and how we need to take care of them. We learned about magnetic force through the representation of a spider making a web. We also spent time building forts big enough to fit our entire class.

During the month of November we will:

- Build a car
- Build a leaf creature
- Build a ship that floats

I am amazed week after week of your children's creativity and their willingness to try and try again. Thank you for sharing your little ones with us! They are such a joy in our lives. Enjoy Thanksgiving, as we have so much for which to be thankful.

Fondly,  
Ms. Boldizar
