

PRE K STEAM NEWSLETTER FEBRUARY 2023

January flew by with lots of great activities. We learnt about igloos, how strong spaghetti is, house building and many more. Our new word was HYPOTHESIS. We also started timing ourselves doing relay races, trying to get faster each week.

We kick off February with a visit from Mothers Nature, she will be talking to us and demonstrating some recycling. We will then transform a box into something else. Please have them bring in a box the week of 2/3/23. It can be big or small, I will have some if they forget, if they have an idea of what they want to build that helps them get started! We will have some fun with Little Red Riding Hood and then some color mixing. We will try and make a new crayon from broken ones.

Finally we'll learn about airplanes and how they fly. We will make paper planes and see whose will fly the furthest.

We have had our first few STEAMERS OF THE WEEKS and we look forward to seeing what this month brings!

Please make a note on your calendar for “A sweet night with dad” 2/9/23 6.30-8. If you would like to donate to the kindness kits we are collecting travel size wet wipes, hand warmers, protein bars, bottled water, travel toothpaste and toothbrushes.

Ms. Jess and Ms. Lisa
