

Dear Little Steamer Families,

We can't believe we are in our last month of the school year! A huge THANK YOU to all of the parents and kiddos for making this such a fun and memorable year for us. We could not have asked for a sweeter group and have truly enjoyed getting to know your families throughout the year! We hope you all have a wonderful summer and that our paths cross again in the future!

5/5 Bugs

Bugs don't bother us! This week we will be learning about all things bugs. We will learn why bugs are helpful as well as what attributes are unique to different types of bugs. We will design and build our own bugs and embrace these small creatures!

5/12 Ocean

This week we will be channeling our best life at the beach! The kids will be creating ocean themed salt painting, making ocean slime, learning about how fish breathe underwater, and their challenge will be to use given materials to create a 3D jellyfish.

For our last class, each child is invited to bring to class his/her favorite STEAM related toy from home. Please make it something that fits in a backpack or can be easily held by your child.

Thank you again for a great year! We feel so blessed to have been a part of your child's year at WTKs!

Sincerely,

Mrs. Carlberg and Mrs. Jacobs
